Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Mr. Collard and the Examiner discussed amendments to the independent claims regarding the transition language and the definition of the transfer sheet in view of the two reference to Claveau. Specifically, Mr. Collard suggested defining the transfer sheet as a single layer in the form of an envelope and submitting evidence that the transfer sheet to Claveau '469 cannot be used without a secondary transfer apparatus containing an evacuation envelope. Mr. Collard also suggests modifying the transition language to "consisting essentially of." The Examiner indicated that these proposed changes appeared to differentiate the invention over the Claveau '426 reference. The Examiner, however, indicated that any final determination would be based on a further search and consideration of the prior art of record. .
